

Project Information

Object type: Public utilities
Room: Wash and shower area

Location: Emsdetten, NRW
Client: The town of Emsdetten
Architect: Stadtwerke Emsdetten with Heizung, Sanitär, Klemptneri Kloppenborg and wedi GmbH

Project description

Some companies, including the public utilities service in Emsdetten, provide a wash and shower room for employees who are on the go on building sites. Thus, a sanitary room with a row of washing facilities, lockable individual shower cubicles and a large changing area was built in 1976/77.

Products / Systems used

Fundo Riolito
wedi Building Board
wedi Sanoasa benches

Requirements

Just-in-time delivery
Wanted "tailor-made covers"
Floor-level showers should fulfil several requirements all at once:

- Integrated, floor-level shower surfaces which considerably expand freedom of movement within individual shower cubicles
- Easy for cleaners to keep it clean
- Renouncement of a traditional shower door
