- Foot baths (object-related construction)
- Building boards/wall

Project description

Uniquely located between Apeldoorn and Zwolle in the middle of the picturesque Veluwe nature reserve, this spa offers everything associated with wellness today. The 9,000m² spa is situated on 21 hectares of land (= 14 football fields). Today, Veluwe Bron is a highly-profitable company (in the remaining four months after its opening alone, its turnover for 2008 amounted 10 million Euros) and is THE place to go for wellness in the whole of Holland.

Requirements

- Water-tight building material
- Individual solution/production
- Surface design with tiles, colours, plaster
- Very short drying time
- Quick processing
- wedi Service
- wedi Application Technology
